

PRAYER MOTHER MINISTRY

The youth in our churches benefit from having friendships with adults. Many will develop a special bond with adults other than their parents. Unfortunately, this sometimes creates a two-fold problem—some youth can't seem to develop such an important friendship and some adults are not appropriate role models.

The department of Women's Ministries developed the Prayer Mother program for this purpose. Through this ministry, a Christian woman is paired with a club member and they covenant to pray daily for each other. Building this relationship, a bond of love and trust is developed and generational barriers are torn down.

The opportunity for blessing and life changing benefits for youth and adults are unbelievably enormous. When prayer is woven tightly into the program from the beginning, the potential for success will be increased. Our girls deserve all the caring, teaching and training we can give them.

The program can be customized to each individual church, some design it to be very detailed, while others choose to keep it short and concise.

For a step by step guide to the Prayer Mother program, *Heart to Heart* may be ordered from the International Department of Women's Ministries, *Love Drops*, a Prayer Mother/Daughter Installation program, is also available through the Department, as well as commitment cards and ribbons. A Prayer Mother Brochure is available from the International Department for no charge.
